

# Mowers

## Professionals family

2 YEARS WARRANTY

The ETESIA family of walk-behind mowers guarantees clean, efficient work whatever the conditions...

ETESIA lawnmowers are the fruit of a unique half-century long experience of green space management, so they combine effectiveness in performing the task, ergonomics at work and quality manufacturing. Designed for an irreproachable quality of mowing and optimum efficiency, they also provide the use with comfort and safety, whilst also guaranteeing solidity and durability.

ETESIA professional lawn mowers family, offers you a wide range of machines capable of undertaking all your mowing needs and surface maintenance.

### User's speech:

*"The Pro 46 and Pro 51 mowers are bullet proof but also light weight which enables one-man grass cutting teams to operate."*

*Craig Stockton Managing Director Sherratt Landscapes*

### Pro 53/LH2/LKX2

53 cm - 21 inch  
4,4 - 6 HP/Gasoline  
Grassbox: 85 L  
Theoretical output:  
2 910 sqm/h

### Pro 51/X

51 cm - 20 inch  
4,3 kW - 6 HP/Gasoline  
Grassbox: 85 L  
Theoretical output:  
2 910 sqm/h

### Pro 46/Evolution

46 cm - 18 inch  
6 HP/Gasoline  
Grassbox: 56 L  
Theoretical output:  
1 840 sqm/h

**Biocut 53**

53 cm - 21 inch  
 5,2 HP/Gasoline  
 Mulching  
 Theoretical output:  
 2 430 sqm/h

**Duocut 41 N-ERGY**

41 cm - 16 inch  
 Push mower or Self propelled  
 Electrical engine  
 36 VDC - 1 kW  
 Grassbox: 50 L  
 Theoretical output:  
 1 230 sqm/h

**Duocut 46 N-ERGY**

46 cm - 18 inch  
 Electrical engine  
 36 VDC - 1 kW  
 Grassbox: 56 L  
 Theoretical output:  
 1 518 sqm/h

## Mowers

### Pro 46 Evolution Family

#### New PRO 46 a three-in-one professional mower

The new Pro 46 professional mower is extremely versatile, and is capable of mowing with or without collection in all conditions, or allowing high-quality mulching.

#### User's speech:

*"The Pro 46 have really come into their own because they have been so good at cutting and collecting in the wet weather we've experienced. We have mobile grass cutting teams and the new Duocut models have been popular with them because they are very light for people to lift on and off van/trailer from site to site."*

**John Vincent, Green Grass Services**

#### PERFORMANCE

- **Professional Mulching-mower, 46 cm cutting width.**
- **The three-in-one mower:** capable of mowing with or without collection or allowing high-quality mulching. And they do all that with no need for an accessory! (Mulching insert supplied).
- **That high performance is possible thanks to the Duocut concept** which combines 100% collection and 100% mulching decks together, without compromising the results of either of the functions. Very high collection performance as well because the grass is crushed finely, even if it is long and wet. The grassbox is always filled to capacity (56 l).
- Changing the mowing system is easy: just place the removable insert under the deck if you want to mulch. Remove the insert if you prefer to mow with or without collection. No need whatsoever for a tool or blade change! The insert completes the shape of the deck to form a smooth surface with no roughness, allowing the grass to move easily for incomparably superior mulching.

#### COMFORT

- Comfortable coating on handlebar, and effortless control maintenance.
- Autowash wheels mounted on ball bearings.
- Height-adjustable handlebar with three positions and folded position. 4 litres fuel tank for maximum performance.

#### ROBUSTNESS

- **Kawasaki FJ180V KAI** 6HP and **Honda GCV160**, 5,5 HP engines. Strong and powerful engines.
- **Deck made of Xenoy**, a light and highly impact-resistant material compared to standard ABS.

#### The + products:

- **Mulching without rival**
- **High grass mowing**
- **Perfect grass collecting**
- **Single speed 4,3 km/h**
- **Shaped handlebar**
- **Millimetre precision cutting height adjustment**
- **Powerful engine**
